

Memorandum of Understanding

College Name: **Poojya Doddappa Appa College of Engineering**

Date: **09 -10- 2019**

Texas Instruments Innovation Centre (A partner of Texas Instruments India University Program)

1. Introduction

India has become a promising investment destination for foreign companies looking to do business here. Our Honorable Prime Minister of India Shri Narendra Modi has launched the '**Make in India**' and '**Skill India**' initiative with the aim to give the Indian economy global recognition. This initiative is expected to spur development, economical growth and thereby improving the living standard of Indian Citizen.

Education has to play very important role in providing huge pool of skilled and knowledgeable, and industry ready Employees. The future success of Indian industry depends on the growth of quality education in India, especially since Indian industry is competing globally in areas such as software and hardware electronics, automobiles, pharmaceutical, chemicals, engineering equipment etc.. However, the reality is that only a very small percentage of these students are readily employable (@25% or less as per the survey by Nasscom) and most lack industry specific skills. In order to bridge this gap between the academia and the industry and to ensure ready deployment in regular work streams, structured industry specific training is necessary. Also you need good support systems for skill development. EdGate is focus towards the same and partnered with worldwide companies to get world class technology on IOT, Embedded ,Robotics and Analog systems in India .

2. Brief Introduction about Poojya Doddappa Appa College of Engineering

The Hyderabad Karnataka Education (HKE) society founded by Late Shri Mahadevappa Rampure, a great visionary and educationist. The HKE Society runs 46 educational institutions.Poojya Doddappa Appa College of Engineering, Gulbarga The college campus is spread over 71 acres of land on either side of Mumbai-Chennai railway track and has a sprawling complex with gardens and greenery all around, Poojya Doddappa Appa College of Engineering, Gulbarga is the first institution established by the society in 1958. The college is celebrating its golden jubilee year, setting new standards in the field of education and achieving greater heights.

This institute has NBA accreditation for three departments (ISC, IPE and Automobile Engg departments) as on date.

It houses 11 undergraduate courses, 10 post Graduate courses and 12 Research centres,

established in Civil Engg., Electronics & Communication Engg, Industrial & Production Engg, Mechanical Engg, Electrical Engg., Ceramic Cement Tech., Information Science & Engg., Instrumentation Technology, Automobile Engg., Computer Sc. and Engg., Mathematics and Chemistry All the courses are affiliated to Visveswaraya Technological University, Belagavi. At present the total intake at UG level is 980 and PG level 193. One of the unique features of our college is, it is the first college in Karnataka State to start the Electronics and Communication Engineering branch way back in the year 1967, to join NIT Surathkal and IISc, Bangalore.

3. Brief Introduction about EdGate Technologies Private limited

EdGate Technologies Private Limited is **Texas Instruments India University Program Partners**. EdGate has an extensive presence all over the country and well established connectivity within the academic and corporate communities. Our aim is to reach out to the Corporate, educators and the engineering student community to help them achieve more in their research and their learning initiatives.

Services offered to Universities under **Texas Instruments India University Program**

- Presales Guidelines
- Sales and Continuous Post Sales support
- Installation and Training
- Train the Trainer Program (Customized)
- Seminar/Workshop (Customized)
- Faculty Development programs (Customized).

EdGate has setup Texas Instruments Labs in various Engineering colleges across India. EdGate has signed 150 + MOU's and 25 TIIC's with Engineering colleges under Texas Instruments University Program.

EdGate Technologies provide a whole range of services by leveraging its business expertise by strategic alliances with leading technology providers are Sole authorized distributors of following Partners

- Mango Communication, USA : Mango has its roots in the Rice University Wireless Open-Access Research Platform (WARP) project, originally an NSF-funded research
- Project that has grown into a self-sustaining open-source wireless research platform.
- SoftDB, Canada (Texas Instruments – Third party developer)
- Technosoft motion, Switzerland (Texas Instruments – Third party developer)
- Neeruro, Singapore (Senzeband Brain Wave Technology)
- Link Research, USA (Texas Instruments – Third party developer)

Texas Instruments University Program

COLLEGE OF ENGINEERING
KALABURAGI-585102

The TI University Program is the intersection between TI technology, educators and the engineers of tomorrow. Our advanced analog and embedded processing technologies fuel the passions of students and educators in university labs worldwide. Established in 1982, the TI University Program is a global program dedicated to supporting educators, researchers and students in facilitating the inclusion of TI analog and embedded processing in engineering classrooms, teaching and research labs, textbooks, design projects and course curriculum. By building relationships with educators, TI works to bridge the gap between the business and academic world. Incorporating TI technology into curriculum provides educators with the ability to teach real world concepts and complement this with a unique hands-on learning experience utilizing TI tools, making it more exciting, relevant and valuable to the student.

Working with TI increases the knowledge base of future engineers so they interact with industry-standard technology before they graduate. TI helps develop the skills needed to tackle tomorrow's most challenging problems. By providing students access to the largest and most advanced analog and embedded processing portfolio, the TI University Program provides the tools necessary to inspire innovation and take engineering concepts from the book to the breadboard.

1. Contribution and Expectation of EdGate Technologies under Texas Instruments India University Program

As on-ground deliverables, EdGate Technologies will provide the following:

- a) **Curriculum:** EdGate will provide the Curriculum for Texas Instruments Labs. Poojya Doddappa Appa College of Engineering should find ways to incorporate curriculum in their syllabus.
- b) **Lab Setup:** The College will set up a lab which will be entitled "Texas Instruments InnovationLab" at its premises.
- c) **Faculty Development Program:** Poojya Doddappa Appa College of Engineering will organize at least one faculty development program in its premise for its faculty members and faculty members of other Indian engineering institutions to teach TI Platform. The College will provide the infrastructure facility for conducting the faculty development program. EdGate Technologies Pvt Limited will help the college in conducting this program.
- d) **Workshops/Events:** If the College wishes to organize a national event in the area of TI-Platform, EdGate Technologies Pvt limited will provide speakers.
- e) **Training Programs:** EdGate Technologies Pvt Limited will assist the college in organizing training programs/tutorials on topics related to TI Platform. Faculty members from the college who have undergone train-the-trainer program and who are certified by EdGate Technologies Pvt Limited as trainers may run certified training programs. Poojya Doddappa Appa College of Engineering will provide certificates for the participants of such programs. (Valid for 1 year only)

POOJYA DODDAPPA APPA
COLLEGE OF ENGINEERING
KALABURAGI-585102

- f) **TI Lab Engagement Program:** EdGate Technologies Pvt. Limited will help the Poojya Doddappa Appa College of Engineering to get engaged into the TI Innovation Center Labs under this program over a period of 3 months at three different levels i.e., Basic, Intermediate and Advanced.
- g) **Under TI Lab Engagement Program,** Poojya Doddappa Appa College of Engineering in association with EdGate Technology Pvt. Limited, May organized and conducts Summer/Winter Training Program for the students from all the nearby engineering institutes along with students from their college by charging moderate fees. EdGate Technologies will provide experts for such program on subsidies charges. EdGate will certify those students.

2. Contribution from Poojya Doddappa Appa College of Engineering

Faculty Mentor: Qualified Faculty of Electronics & Communication Engineering, Instrumentation&Control Engineering, Biomedical Instrumentation, Computer Engineering, and Information Technology (preferably with programming knowledge on C; C++) will be made point of contacts and will mentor interested students.

Poojya Doddappa Appa College of Engineering should set up lab based on below:

Sr.No.	ITEM	QUANTITY	APPROXIMATE COST
	Cost of Texas Instruments Innovation Center: Below items will be delivered	Below Package	7LAKHS
1	Robotics Advance Control And IoT		
A	Robotics System Lab Kit	10	
B	Senzband with Mind Sync and Memory App	2	
C	RSLK compatible sensors and Bluetooth Module	3 Set	
A	PIR sensor		
B	HM-10 Bluetooth module		
C	Ultrasonic sensor		
D	Servo motor		
E	Moisture sensor		
F	Buzzer		
G	Dedicated Edgate Apps for RSLK		
2	Digital Signal Processing Lab (DSP)		
A	TMS320C6748 DSP Development Kit with XDS100 v3 JTAG Emulator	3	
3	Analog Attach MCU Labs (ARM)/Embedded Lab: A secondary Element that attached to

U	Cross Works Software For ARM(Single Licence)*	1	
5	Training for Faculty(Advance Robotic Control and IOT)	4 Days	
6	Training to students(IOT Training) : Registration Material to all participants (Pens, Pads, Folders)- Internet facility is must for workshop, Certificate to all participating students	50 student/ 20 faculty (4 Days for Students)	
7	TI Lab Poster and TI Lab Signage(Branding Material)		

Terms and Conditions :

1.Payment:100% Payment in advance

2.Warranty: 1 Year

3.Validity: TIIC Agreement is perpetual and Training agreement is valid for one year only

4.Taxes : GST 18% Extra

- a) Center: Institute will identify and maintain Texas Instruments Innovation Center with at least 10 desktops / laptops on latest home/ office configuration.
- b) Peripheral components: Institute will make arrangement for other equipment required for setting up the lab and for the maintenance of the lab.
- c) Financial: Institute will operate the center with the help of existing staff.

Poojya Doddappa Appa College of Engineering –Texas Instruments Innovation Center (TIIC)

EdGate Technologies aimed at establishing a collaborative bridge between companies and colleges with the objective of making students in the Engineering Colleges and Schools have a greater hands on experience in technologies related to :-

- a. Ultra Low Power Applications
- b. Embedded System (Real time system Design)
- c. Internet of Things (IOT)
- d. Robotics Lab With Brain Wave Technology
- e. Digital Signal Processing Lab (DSP)

These programs would go a long way to get the students hands on project experience in state of the art Micro-controller boards which are being developed by Texas Instruments. The experience will include hands on software and hardware skills which are highly desired by industry. These projects will provide an experiential appreciation of the latest technologies giving the students significant edge across multiple dimensions like, knowledge, enhanced employability, project experience, etc.

Poojya Doddappa Appa College of Engineering–TIIC will bring in the following core values:-

Colleges:

- Ultra Low power Microcontroller Lab
- Internet of Things technology is based on the traditional Internet technology, development and extension, due to its extremely wide range of applications, involving almost all walks of life, and therefore in order to meet the needs of industry professionals, a growing number of colleges and universities applied for Internet of Things engineering professional, in teaching programs arranged in Internet of Things technology courses.
- Strong Branding and ability to attract better quality students
- Better ranking amongst the competition

Students:

- Exposure to state of the art technologies through hands on learning experience
- Better employability opportunities
- Showcase talent and innovation
- Participating in Texas Instruments Innovation Challenge. (If Texas Instruments conducts any contest centre will be connected with the same)

Vision forward:

EdGate Technologies hopes that once these Innovation centers are in place and running, if Texas Instruments conducts any contest centre will be connected with the same.

Restrictions and Obligations Governing the Use of Confidential Information and Materials

- a) Recipient shall not disclose any Confidential Information/Confidential Material, to third parties without the prior written authorization of the Company. Notwithstanding the foregoing, the Recipient shall not at any time disclose to any third party any Confidential Information/Confidential Material or any Confidential Information of any other party to whom the Company owes an obligation. However, the Recipient may disclose Confidential Information in accordance with judicial or other governmental orders, provided the Recipient shall give the Company reasonable notice, prior to such disclosure and shall comply with any applicable protective order or equivalent.
- b) The Recipient shall not use any Confidential Information or Confidential Materials of the Company for any purposes except those expressly contemplated hereby or as authorized by the Company.
- c) The Recipient shall take reasonable security precautions, which shall in any event be as great as the precautions it takes to protect its own confidential information, to keep secure the Confidential Information.
- d) Recipient agrees to segregate all such Confidential Materials from the confidential materials of others to prevent co-mingling.
