Student Feedback on Institutional Governance/ Faculty performance

Introduction:

Quality teaching learning process has a great bearing on the achievement of vision and mission of PDA College of Engineering and PEOs of respective programs. In this regard, the College take all the care to improve its deliverables by identifying areas of strength and weakness by taking feedback from various stakeholders including students to improve its teaching learning process as well as academic climate with accountability. As a policy the college rewards /acknowledges the contribution by top performers, whereas try to improve the performance of laggards by motivating them to improve their performance by intimating their existing shortcomings and allow them enough leverage to improve their performance. The whole process believes in improving the institutional deliverables by seeking involvement of each one of the members in the college activities.

Objectives of Student Feedback on Study-units:

Student feedback on study-units has the following main objectives:

- I. To provide an opportunity to students to give feedback on the quality of learning experiences, which is also needed for review process of course and faculty performance;
- II. To assess the success of academic provision in relation to the expectations of students;
- III. To provide feedback to faculty and staff in order to improve delivery and/or content of the study unit.

Feedback collection process:

Feedback has been collected at the end of every semester through online mode. The Program Coordinator in each department collects feedback from students in all courses offered by the program. Student feedbacks on study-units are collected through a standard format designed to elicit feedback on Faculty Traits, Teaching learning Process, and Evaluation Process on a Likert Scale of 5. The process is designed to collect feedback stressing on anonymity of the

student to ensure that students are not adversely affected by the feedback they submit.

Feedback Analysis Process:

Feedbacks given by the students are analyzed by the concerned Program Coordinator and Head of the Department in order to identify the strength and weakness of each faculty. Every question has a scale of 5 points. Based on the weightage given and average points accrued for all the points the faculty performance level is assessed. The report is conveyed to the concerned faculty.

Indices used for measuring quality of teaching & learning and summary of the index values for all courses / teachers:

The performance of the teacher is graded as

below: More than 4 points : Excellent

From 3 to 4 : Good

Below 3 : The teacher is counselled by HOD for improvement.
